d o l l a r s

Yes,
I support local TV.
Here is my \$10

You can make a difference in our community. You can be a supporter of our own local public television station. We need each and every one of the people our community that value our local information, events, and activities to join. It has never been easier to support local television.

Comcast Channel 26 is operated by The Community Media Network. It is a new non-profit organization created to help you and the people in our region get locally produced programming on TV.

The Community Media Network needs your support with donations, producer memberships and your volunteer time. We will be creating programs for training and will be purchasing equipment to operate the CMN.

You can help make local TV a reality for only \$10. This gets you a calendar year membership to the Community Media Network. We will be preparing a monthly email newsletter and will be developing new ways to provide community news and information on a regular basis on Channel 26.

It is your friends, family, colleagues that are producing the programs that appear on this local TV channel. Channel 26 is one of a kind, and we are counting on you to join and make a difference.

We need local programming now and you can do it.
